SILHOUETTE SOFA

DESIGN BY GAMFRATESI, 2017

GamFratesi's Silhouette Sofa series is characterised by the smooth curve of the sofa's back, which seamlessly combines a strong character with a simple, organic expression. With an angular front view and defining piping details, the sofa appears compact and economical with space, yet light and spacious and offers generous seating. The family comprises sofas in different sizes and heights, with legs available in steel or solid wood and a number of selected textiles to choose from. The different configurations and strong structural language make the sofa a natural choice for defining space and creating intimacy in large and small areas in private and public contexts.

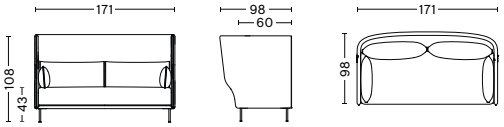

HIGHLIGHTS

- Modern 2- and 3-seater sofa series with organic expression offering low-and high back options.
- The high back works particularly well in creating defined or intimate areas in offices/open spaces.
- Available in a variety of fabrics and leathers.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

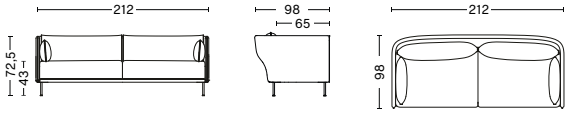

DIMENSIONS

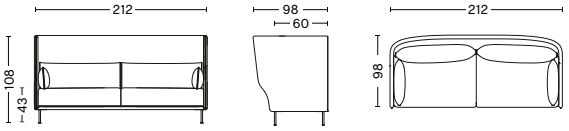

SILHOUETTE SOFA 2 SEATER
WIDTH 171 CM

MATERIALS

FRAME
Moulded reinforced fibre glass shell upholstered with PU foam comprising foam of varying hardness.

CUSHIONS
Seat cushion of pocket springs and PU foam. Arm- and backrest cushions stuffed with a combination of feathers and granulated foam.

LEGS
H17,5 cm | powder coated steel, chromed steel or solid oak.

PIPING
Cognac leather, black leather or a piping matching the fabric.

OPTIONS

CMHR foam (fire retardant).

CONSTRUCTION

The outer shell of the sofa is made of moulded reinforced fibreglass upholstered with a combination of PU foam hardnesses. The seat cushion is made of PU foam with a core of pocket springs. Both arm- and backrest cushions are stuffed with a combination of feathers and granulated foam. The 4 legs are assembled with 4 metric screws to the base by the costumer.

FABRIC DIRECTION

The direction of the fabric varies depending if the sofa is low-or highbacked or a 2- or 3-seater, as they are upholstered lengthwise or widthwise. Therefore, this might create a visible difference in the direction of the textiles when combining different sofa variants. The difference varies from textile to textile, but is most noticeable in structured or striped upholstery.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
